

## AT A GLANCE

Our paramount goal is to serve our clients with dignity, diligence, honesty and above all, love. Our skillful staff are very well trained, mannered, motivated and professional. Towards this end, we guarantee our service and the satisfaction of our clients and their loved ones or families with the level of care that they receive.

We only employ highly qualified nurses, certified home health aides and personal care assistants who are ready to provide professional medical care.

Family first home health care, inc. offers registered nurse service to our clients. For years they have continued to work as care, recovery and health maintenance advocates for our clients. Our RNs employ the nursing process to assess plan, implement and evaluated nursing care of the sick and injured.

## ABOUT US

Our Mission at Family First Home Care is to provide a quality service to our clients in the most loving, caring and effective process.

Our services are individually tailored for every client to best suite their health care needs.

Our service delivery model is designed to effectively manage the

health care delivery process in an efficient, timely, honest and caring manner. We have solutions that are sure enough to meet your needs.

Family First Home Care, Inc. is dedicated to providing professional care to the elderly and handicapped in our community in the comfort of their homes.

We strive to provide our clients with the highest quality of living in the comfort of their homes.

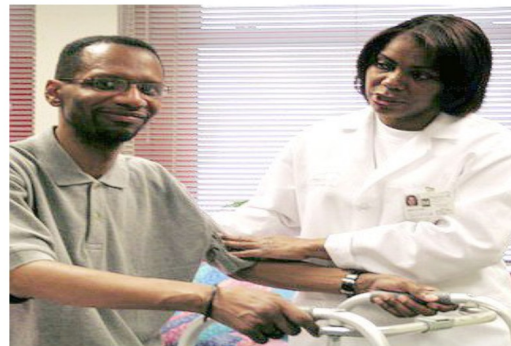

## OUR SERVICES

In-Home Health Care is a comfortable and affordable choice to many who wish care for their loved ones away from the rigors of nursing homes.

## CARE SOLUTIONS

Our home health care solutions are custom-designed to fit your life while making sure you get the care you need from a Medicare-certified provider. Our competent, well-trained and carefully screened staff will work in partnership with your family to give you the peace of mind you need to enjoy your happy, active lifestyle.

Our goal is to assist our clients in achieving their maximum potential for independence in living and obtaining an optimal quality of life. Clients benefiting from these services include those who have recently been ill or have demonstrated chronic susceptibility towards illness due to age, auto-immune

issues or even those returning home from the hospital or rehabilitation center needing assistance with in-home care. Often clients may

need monitoring, assistance with medication compliance and education, daily living needs and home safety evaluation, or in-home rehabilitation care.
